Vitamin C is essential for the formation of collagen (connective tissue). This is necessary to strengthen the skin. The vitamin promotes collagen formation on your skin.

Furthermore, the ingredient can reduce acne and pigmentation spots, and it works for rosacea. In the latest study, it has been shown that the skin of test subjects has become smoother and firmer. In addition, vitamin C is an antioxidant and can prevent UV damage.

All in all, the vitamin is almost a 'mandatory number' in your cosmetic product.

Radiance C Ferulic Edafence Serum from Endocare is a daily treatment to protect the skin from damage caused by external factors. The product is formulated with antioxidants that fight against free radicals and pollution. The formula is suitable for all skin types and is non-comedogenic.

10% Vitamin C Serum from ZOSKINHEALTH contains a powerful dose of pure Vitamin C, which has been stabilized to make the skin glow and give it a more beautiful structure. It promotes a beautiful complexion and helps prevent pigmentation. This anhydrous formula activates itself on contact with the natural water in the skin and has the effect of revealing radiant, even skin.

Water keeps your body hydrated and refreshed and helps maintain your skin's elasticity.

People who drink large amounts of water are less likely to suffer from scars, wrinkles, and soft lines and they won't show as many signs of aging as those who drink little amounts of water.

As you grow older, it is tougher for your body to retain water, so by inputting more water into your system, you are helping your body and your skin stay hydrated.

Pregame Ritual to something special that is about to happen... 😊

New treatment: Circadia Mandeliclear with Accelerator A... incl. Post Peel Home Care Package!

When you book our newest treatment: the Circadia Mandeliclear, you will receive the Post Peel Home Care Package!

The philosophy of Circadia is based on the circadian rhythm of the body (also called the biological rhythm) whose cycle lasts about one day (Latin: circa = around, dies = day). It is also known as a 24-hour rhythm or a sleep-wake rhythm. This refers to a 24-hour cycle of rhythmic changes in our physiology and behavior.

There is, for example, the self-designed MandeliClear Peel, where the basis focuses on a Jessner Peel, but which, thanks to a unique mandelic acid addition, has several areas that can be used such as dark skin types, sensitive skin types and pigmentation.

This peeling comes with a Post Peel Home Care Package to protect the skin during the peeling process.

Price: € 175.00

Book two Exuviance Peelings...
...and receive Heliocare's sun cream as a gift!

During the entire months of February and March you will receive a Heliocare sun cream as a gift when you book two Exuviance Peelings!

The Exuviance Peeling is a chemical peeling that effectively tackles various skin problems without downtime. Exuviance works with 3 generations of acids AHA (glycolic acid), PHA (gluconolactone) and the bionic PHAs (lactobionic acid), whereby in addition to the peels, the home products also provide an important skin improvement.

The fruit acids contained in the Exuviance peels and products act on all skin layers. They stimulate cell renewal, making the pores smaller and the skin glowing again. In a mild way, your skin will get a clear, even and younger complexion. The AHA fruit acids help the skin to reduce sun damage such as fine lines and pigmentation. A perfect winter treatment!

Heliocare is a high-tech sun protection brand, with a wide choice of products suitable for all skin types. Heliocare products protect the skin against UVA radiation, UVB radiation, visible light and infrared. With the active basic ingredient: Fernblock.
